

INSPECTION WINDOW SQUARE

Square inspection window in transparent, impact-resistant polycarbonate. Intended for HVAC-applications using insulated or double-skinned doors. The window is equipped with an integrated gasket and is suitable for units with positive or negative pressure. Simple mounting by using eight self-tapping stainless screws from one side only. No fastening hardware on the inside ensure perfect thermal breakage. Mounting screws are included.

Sealed against dust and water according IP66.

MATERIAL

- Screw:** Stainless steel 304
- Sealing:** Foam rubber, EPDM
- Spacer:** Black ABS
- Window:** Polycarbonate V0, UV stabilized
