

QUARTER-TURN HYGIENE LATCH STAINLESS STEEL 18 MM

This quarter-turn latch is corrosion resistant and manufactured to achieve hygiene requirements according to ISO 14159. The latch has smooth, curved surfaces and is manufactured from non-absorbent materials to simplify cleaning and disinfecting. It may thus be used in clean room environments or applications in industries that process food, pharmaceuticals, biotechnology, cosmetics and similar.

Sealed according to IP69K and waterproof according to NEMA 4.

Universal left and right mounting.

MATERIAL
